HOW TO PLAY SUDOKU

Sudoku puzzles are a fun way for kids to learn logical reasoning and critical thinking skills.

Each image must appear once and only once in each row, column, and 2x2 subgrid.

To complete the puzzle, cut out the picture tiles underneath the sudoku grid then place the picture tiles in the empty spaces.

Sudoku is a logic-based, number-placement puzzle. In classic sudoku, the objective is to fill a 9x9 grid with digits so that each column, each row, and each of the nine 3x3 subgrids that compose the grid contains all of the digits from 1 to 9

This picture version using a 4x4 grid is a great introduction to sudoku for kids! (And adults who can't quite figure out how to solve these puzzles!)

CINCO DE MAYO SUDOKU

Cut out the picture tiles at the bottom of the page to fill in the Sudoku grid!
Each row, column, and 2x2 grid should contain four different images!

CINCO DE MAYO SUDOKU

Cut out the picture tiles at the bottom of the page to fill in the Sudoku grid!
Each row, column, and 2x2 grid should contain four different images!

CINCO DE MAYO

A day to celebrate Mexican culture and heritage on May 5th.

PAPEL PICADO
